To Whom It May Concern:

Vantage Medical Billing has been working for my anesthesia practice for 30 plus years. Our business relationship dated back to 1983, starting out with Sam and then Alan 10 years ago when senior Ryono retired.

Like the father, Alan provides very effective and efficient collection services and he is always loyal and puts the client's interests first. Further, he is willing and instrumental to help negotiating my contracts with HMO, hospitals and insurance companies.

In our lengthy relationship and sometimes challenging situation, I never doubted his hard work and honesty. I even recommend Vantage Billing to my anesthesia as well as surgical colleagues.

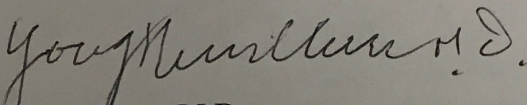

For a brief time of one year between August 2017 and August 2018, my contract with Foothill Presbyterian Hospital was absorbed by CVAMG, I did use ABEO for collection that was dictated by the contract.

Now, I am working at Glendora Surgery Center. I am coming back to Vantage Billing just like the good old days.

Vantage Medical Billing is an ethical, trustworthy and very capable company. Alan and his company will prove to be an excellent asset to your practice management.

I strongly recommend Vantage Billing without any reservation. You may contact me if there are any further questions.

Sincerely,

**Yong S. Chen, M.D.
Director of Anesthesia
Glendora Surgery Center**
